

Women Clergy Connector

It has been an honor and blessing to serve as the Women Clergy Connector. We have had an exciting year of planning the 2018 state convention hosted by the St. Louis region. It has been an even greater joy to learn of the excitement of the delegates as the number of registrations continue to climb.

The Missouri Christian Women Connection is a state women's group where every woman has a place and every woman takes her place. It is our desire to connect women clergy as they are encouraged to use their gifts and find their voice. The Women Clergy Connector seeks to also encourage women who feel called to ministry to answer the call without fear and know that they have a support system. God doesn't always call the equipped, but equips those He calls.

Our goal is to create not only an atmosphere for Christian Women to fellowship and get away from the busyness, but to also have a place for clergy women to connect, strengthen one another and grow. Please pray with us as God continues to show us how to accomplish that goal.

In His Service,

Rev. Marilyn Stowers
Women Clergy Connector
